

2022

COASTAL

Experience Credential

Services:

- Integral solutions of marine – coastal infrastructure
- Sedimentological studies and dredging projects. Mouth works
- Erosion control works and coastal protection, jetties and breakwaters
- Project and inspection of submarine pipelines laying. Marine works of intake and discharge, emissaries
- Tourist and sport facilities, artificial beaches
- Marine hydraulics studies
- Oil and gas pipeline
- Mathematical modeling of diffusion and thermal recirculation in thermoelectric power plants cooling water systems
- Waves regime studies based on global retrospective models. Oceanweather's GROW model
- Mathematical modeling of wave propagation in coasts and ports. (GHOST and MAP models from TECNOCEAN STWAVE and ADCIRC)
- Optimization of designs with physical hydraulic models at scale

Coastal Experience Sedimentation & Dredging

In the **Incostas Nouel Group**, we provide services that allow maintaining and securing maritime, river and estuarine navigation channels. Dredging of lagoons in oil facilities, hydraulic fillings, etc.

Sedimentation Studies and Dredging Projects

Technical direction, project and inspection of dredging. Assistance and navigation aids in the San Juan river and Maturin bar
PDVSA
Monagas State, Venezuela

Dredging of the production platforms of Pedernales field and the access channel
PERENCO OF VENEZUELA, S.A.
Delta Amacuro State, Venezuela

Hydrographic services, technical direction, projects and dredging inspection in the oil terminals of Puerto Miranda and Pequiven
PDVSA
Zulia State, Venezuela

Dredging technical direction in the Sepetiba channel, Río de Janeiro.
CHINA HARBOUR ENGINEERING, Co
Sepetiba Bay. Rio de Janeiro. Brazil

Wave, sedimentation and geophysical survey study for a natural gas FSU at Sandino Port.

SANCHEZ ARGUELLO CIA LTDA

2020

Nicaragua

Study of the dredging needs in the Camuri Grande club.

CLUB CAMURI GRANDE A.C.

2019

Venezuela

Consulting services for coastal dynamic study of the San Jorge project.

NICARAGUA NATIONAL PORT COMPANY

2016 -2017

Rivas Department. Nicaragua

Simulations analysis of pertinence of change in the travel frequency for the disposal of dredged material to the dumping area of the port of San Antonio.

SIGA

2015

San Antonio, Republic of Chile

Professional service to study the sediment accumulation phenomenon in the marine area concessioned to DP World Callao SRL in the port terminal of Callao.

NATIONAL PORT AUTHORITY

2015

Lima. Peru

Studies of Basic Engineering and dredging project of the port of Salaverry.

PORTS NATIONAL COMPANY (ENAPU)

2015

Trujillo. Peru

Fluff study. Consultancy specializing in hydraulics, hydrology and hydrodynamics sedimentological to develop a methodology for measuring fluid muds in the sector of Boca Grande of the Orinoco river.

NATIONAL CHANNELING INSTITUTE (INC)

2013

Boca Grande sector. Orinoco River -Venezuela

Coastline geomorphology study. Litoral transport. Coastline evolution and re-dimensioning. Port of Bilwii.

EMBYSA

2010

North Atlantic Autonomous Region. NAAR - Nicaragua

Geomorphology study of the coast in Miramar. Project "Bolivar's Supreme Dream".

EMBYSA

2010

Nicaragua.

Study of Local conditions, sedimentation and CWS discharge modeling. Project: New coal thermoelectric power central in Puerto Coronel.

COLBUN, S.A.

2006- 2008

Puerto Coronel. III Region. Chile

Study on sedimentary processes and flooding risk by extreme lake levels.

PDVSA

2006 - 2009

Tomoporo District. Zulia State, Venezuela

Local conditions study, sedimentation and CWS discharge modeling. Project: New coal thermoelectric power central in Punta Pochoco.

COLBUN, S.A.

2005 - 2006

VIII region, Chile

Local conditions study, sedimentation and CWS discharge model. Project: New coal thermoelectric power central in Penco.

COLBUN, S.A.

2005 - 2006

VIII Region. Chile

Dredging of the production platforms of Pedernales field and access channel.

PERENCO OF VENEZUELA, S.A.

2005

Delta Amacuro State. Venezuela

Technical direction and inspection of the dredging at the petroleum terminals of Puerto Miranda and Pequiven.

PDVSA PETROLEUM, S.A.
2003 - 2004
Zulia State. Venezuela

Dredging at the service pier in the Ricardo Zuloaga generator complex. Thermoelectric power plant of Tocoa.

C.A. LA ELECTRICIDAD DE CARACAS
2003
Vargas State. Venezuela

Dredging technical direction in the Sepetiba channel, Rio de Janeiro.

CHINA HARBOUR ENGINEERING, Co.
2000 - 2001
Río de Janeiro. Brazil

Technical services of dredging, hydrography and navigation for the operations of navigation maintenance in the San Juan river and Maturin bar, terminal of Caripito.

PDVSA
1986 – 2000
Monagas State, Venezuela

Studies of estuary hydraulics. Works for sedimentation control. Sinamaica lagoon conservation project.

MINISTRY OF ENVIRONMENT AND NATURAL RESOURCES. MARN
2000
Zulia State, Venezuela

Inspection of the dredging at the Puerto Cabello bay.

NOUEL INGENIEROS, C.A.
1995 -1997
Carabobo State, Venezuela

Inspection of the dredging for the CRAY marine terminal.

LAGOVEN, S.A.
1992
Falcon State, Venezuela

Preliminary hydro-sedimentological study of the San Juan river. Mathematical model of the tide propagation.

LAGOVEN, S.A.

1986

Monagas State, Venezuela

Technical assistance for the execution of sedimentation studies in the Orinoco river.

WATERWAYS.NATIONAL INSTITUTE. INC

1992

Bolivar State, Venezuela

Feasibility study of the dredging at the mouth of the Neveri river.

STATE OF ANZOATEGUI GOVERNMENT

1980

Anzoategui State, Venezuela

Project of the rockfill channel of the Cerro Grande river mouth.

SINGLE AUTHORITY FOR THE STATE OF VARGAS AREA

2002

Vargas State, Venezuela

Inspection of the dredging, piers of the Amuay refinery.

PDVSA PETROLEUM, S.A.

2001

Falcon State, Venezuela

Update and review. Dredging market research in Venezuelan ports and channels.

DRAVENSA

2001

Federal Premises, Venezuela

Puerto Azul Club dredging, proposal for the inspection.

PUERTO AZUL CLUB

2001

Vargas State, Venezuela

Channeling works at the mouth of Copey creek.

MINISTRY OF ENVIRONMENT AND NATURAL RESOURCES. MARN

2001

Miranda State, Venezuela

Evaluation of the effect of the fluvial sediments discharge on the sedimentation of the La Guaira Port.
MINISTRY OF ENVIRONMENT AND NATURAL RESOURCES. MARN
2000
Vargas State, Venezuela

Morphologic evolution study of the Motatan river Delta.
MOBIL EXPLORATION OF VENEZUELA, S.A.
1998
Trujillo State, Venezuela

Diagnostic of the effects of the construction of a reservoir on the stability of the beach. Puerto Maya .
HIDROCAPITAL
1998
Aragua State, Venezuela

Loading pier of the Corpoven's cryogenic in Jose. Diagnostic of the actual sedimentary processes.
CORPOVEN, S.A.
1995
Anzoategui State, Venezuela

Bathymetric raising and dredging project of the harbor of the Playa Blanca fishery dock.
NOUEL INGENIEROS, C.A.
1995 - 1997
Carabobo State, Venezuela

Recovery of the beach project and sedimentation control at the Puerto Moreno Marina.
NOUEL INGENIEROS, C.A.
1995
Nueva Esparta State, Venezuela

Characteristics of the material to be dredged at the miles 14 to 20 section of the navigation channel of the Orinoco river. Boca Grande channel.
ROYAL BOSKALIS WESTMINSTER
1995.
Bolívar State, Venezuela

Improvement of the mouths of the Marga-Marga, Carampangue, Mataquito and Queule rivers.
MINISTRY OF PUBLIC WORKS. PUBLIC WORKS MANAGEMENT
1995
Chile

“Fluff” studies in the estuary of Maracaibo.

NATIONAL CHANNELING INSTITUTE. INC

1995

Zulia State, Venezuela

Study and project of the marine works for the integral project of Puerto Brion in Higuerote.

STATE OF MIRANDA GOVERNMENT

1994

Miranda State, Venezuela

Study of the sedimentary and morphologic processes of Puerto Moreno marina.

NOJEL INGENIEROS, C.A.

1994

Nueva Esparta State, Venezuela.

“Fluff” studies in the outer section of the navigation channel of the Maracaibo lake.

NATIONAL CHANNELING INSTITUTE. INC

1993 - 1994

Zulia State, Venezuela

Consultancy for the sedimentological study in physic model and project of the work: “area to reclaim to the sea”, port of San Antonio.

MINISTRY OF PUBLIC WORKS. PUBLIC WORKS MANAGEMENT

1993

Valparaíso. V Region. Chile

Inspection of the dredging at the port of Zazarida.

STATE OF FALCON GOVERNMENT

1993

Falcon State, Venezuela

Sedimentation studies for the location of the Pequiven’s pier in Jose port harbor.

PEQUIVEN

1992

Anzoategui State, Venezuela

Venezuelan counterpart to the MOPT Dutch mission in the analysis for Navigation channel improvement and reduction of maintenance costs.

NATIONAL CHANNELING INSTITUTE

1992

Zulia State, Venezuela.

Analyses of the sedimentary processes and dredging and breakwater project in the port of La Vela.

STATE OF FALCON GOVERNMENT

1991

Falcon State, Venezuela

Analyses of the sedimentary processes and dredging and breakwater project in the port of Zazarida.

FALCON STATE GOVERNMENT

1991

Falcon State, Venezuela

Analyses of the sedimentary processes and dredging and breakwater project in Puerto Cumarebo.

STATE OF FALCON GOVERNMENT

1991

Falcon State, Venezuela

Discharge management of the dredged material at the piers of the Amuay refinery.

LAGOVEN, S.A.

1990

Falcon State, Venezuela

Dredging project and feasibility study of the Lagoven's service pier in Amuay.

LAGOVEN, S.A.

1990

Falcon State, Venezuela

Project of the Sinamaica lagoon recovery.

CORPOZULIA

1990

Zulia State, Venezuela

Preliminary study on the sedimentary processes in the Maracaibo bar and El Tablazo bay, on relation to the navigation channel maintenance dredging.

NATIONAL CHANNELING INSTITUTE. INC

1989

Zulia State, Venezuela

Inspection of the dredging for beach sand filling at Ocumare de la Costa.

MINISTRY OF URBAN DEVELOPMENT (MINDUR)

1989

Aragua State, Venezuela

Sedimentation and dredging studies at the locations of Santa Cruz de Mara and Pararu.

VEPICA BROWN & ROOT

Coastal Protection Works

In the **Incostas Nouel Group**, we design and build solutions to protect settlements near the coast, or to protect the coast itself; such as, defenses to prevent the erosion of the coastline, prevent flooding in coastal areas, caused by overvaluations of the sea level.

Protection against waves at ports or marinas entrances, stabilization of navigation channels in estuarine mouths, protection works for thermoelectric plants, desalination or discharge plants, among others.

Coastal Experience

Sport and touristic facilities & Artificial Beaches

In the **Incostas Nouel Group**, we design and develop solutions of the highest quality. From small infrastructures such as piers, access ramp, etc. Even large marine facilities with all the necessary services. We have vast experience in projects for the rehabilitation of new recreational beaches and improvement of existing ones.

Some of our solutions include:

- Pocket or bow beaches
- Protection with submerged breakwater
- Combined solutions
- Submerged dikes
- Artificial sand fillings

Coastal

Submarine pipeline and Effluents Diffusion

At the **Incostas Nouel Group**, we offer solutions in sanitary engineering, we have extensive experience in the design of underwater outfalls and effluent diffusers, which are adapted to the regulations of each country.

We carry out all the necessary field studies to characterize the existing local conditions; bathymetry, current measurements, geophysical survey, tidal measurements, etc. Fecal coliform dispersion study. For the determination of the position we use mathematical models of diffusion and thermal recirculation. SMS, CORMIX.

2008

Consultancy for the execution of Detailed Engineering studies and designs for the construction of the necessary works for the Santa Marta city aqueduct system supply final solution.

INAR ASOCIADOS, S.A.

2016 – 2017

Santa Marta, Colombia.

Conceptual and Basic Engineering of the emissary in Turiamo for the discharge of excess water from the Valencia Lake.

HIDROCENTRO

2014

Carabobo State. Venezuela.

Hydro-Thermal Study. Modeling of diffusion and thermal recirculation and sand and

CMEC ENGINEERING, C.A.

Carabobo State. Venezuela

2012

Feasibility Study of Water System of Adduction and discharge for cooling of Project Combined Cycle Termozulia III.

ENELVEN

2010

Zulia State. Venezuela

Bathymetry, marine currents and conceptualization of intake and discharge works study for the Juan Bautista Arismendi thermoelectric power generating plant. El Guamache sector.

GTME - CORPOELEC

2010

Nueva Esparta State, Venezuela

Basic and Detail Engineering of the intake and discharge works for the Termozulia II thermoelectric power generating plant..

JANTESA - ENELVEN

2008-2010

Zulia State, Venezuela

Conceptual, Basic and Detailed Engineering of the submarine emissary. Pluvial sanitation of the Guajimia Creek and it's main effluents.

DESSAU- INC.

2009

Santo Domingo, Dominican Republic

Modification works project of the cooling water system discharge of the AES ITABO thermoelectric power plant.

AES
2008
Dominican Republic

Local conditions, sedimentation and Conceptual Engineering for the discharge of the cooling water system. Project of the new coal thermoelectric power central in Punta Pochoco.

AES GENER
2006
VIII Region, Chile

Study of the local conditions, sedimentation and Conceptual Engineering for the discharge of the cooling water system. Project of the new coal thermoelectric power central in Penco.

COLBUN, S.A.
2006
VIII Region, Chile

Study of the local conditions, sedimentation and Conceptual Engineering of the cooling water system discharge. Project of the new coal thermoelectric power central in Puerto Coronel.

COLBUN, S.A.
2006
VIII Region, Chile

Positioning of the optic fiber cable laying in the Orinoco River between the communities of Los Barrancos and San Felix..

CORPOTELETECNICAL
2006
Monagas and Bolivar States, Venezuela

Studies for the definition and construction of zones for discharge of material coming from the cleaning of the river banks..

CORPOVARGAS
2005 - 2007
Vargas State, Venezuela

Study of the submarine discharge of the Puerto Piritu project, conceptualization of the submarine emissary.

DESSAU SOPRIN – MARNR
2004
Anzoategui State, Venezuela

Experience in...

Extension of the East Coast communities submarine discharge.

HIDROCAPLITAL

2001

Vargas State, Venezuela

Project of the to the sea discharge. Puerto La Cruz drainage.

OBHIDRA

1977

Anzoategui State, Venezuela

Coastal Experience Marine Hydraulics

At the **Incostas Nouel Group**, we have extensive experience in marine hydraulics and coastal engineering, which allows us to characterize the physical behavior of the coastal environment.

Studies of coastal dynamics, bottom morphology, diffraction, refraction and reflection of the waves, calculations with the OUTRAY model.

Dynamic coastal study of the San Jorge project.

EMPRESA PORTUARIA NACIONAL EPN

Nicaragua

2016

Coasts dynamics study of the sector in between Cabo Blanco and Punta Cazonero, Antolin del Campo Municipality, Playa El Agua, Nueva Esparta State.

TRATEVENCA

2014

Nueva Esparta State. Venezuela.

Fluff Study. Specialized consultancy in hydraulics, hydrology and sedimentological hydrodynamics in the Boca Grande of the Orinoco river sector.

NATIONAL CHANELLING INSTITUTE (I.N.C.)

2013

Boca Grande sector. Orinoco River - Venezuela

Study of coasts dynamics of the sector between Punta Cabo Blanco y Punta Cazonero, El Agua beach.

TOURISM CORPORATION. CORPOTURISMO

2001

Nueva Esparta State, Venezuela

Calculations of marine hydraulics related to the diffuser of the submarine emissary.

CONTRINA

2000

Anzoategui State, Venezuela

Studsy of coasts hydrodynamics. North beach of Chichiriviche.

TOURISM CORPORATION. CORPOTURISMO

1994

Falcon State, Venezuela

Inspection of the hydraulic model of the service pier of the Numrep project..

CORPOVEN, S.A.

1994

Carabobo State, Venezuela

Marine hydraulics for the project of the new San Antonio port esplanade.

MINISTRY OF PUBLIC WORKS. PORT WORKS MANAGEMENT

1994 - 1995

San Antonio, V Region, Chile

Experience in...

Study of the hydraulic functioning of the El Morro lagoon of Porlamar.

IMPARQUES

1993

Nueva Esparta State, Venezuela

Coastal Experience Other Studies

At the **Incostas Nouel Group**, we can offer consulting services, studies and projects inherent to the maritime, river and lake environment.

Our projects range from existing infrastructures, with significant limitations, to virgin lands that require large-scale planning.

Other Studies

Consulting, inspection, evaluation and diagnostic services at Morning Glory landfill. Apanas reservoir.

CONINCASA CONSTRUCCIONES INGENIERAS DEL CARIBE, S.A.

2019 - 2020

Jinotega Nicaragua

Update of the material extraction sites for the risks management works, Vargas Plan 2005.

CORPOVARGAS

2005 - 2006

Vargas State, Venezuela

Additional scopes of the environment impact study of Punta de Aves project, Chichiriviche.

VARADERO DEVELOPMENTS

2003

Falcon State, Venezuela

Salinization study of the Maracaibo lake.

NATIONAL CHANNELING INSTITUTE. INC.

1996

Zulia State, Venezuela
